PATRICK C. KELIHER
COMMISSIONER

May 11, 2016

Lisa Wallace
1042 Main Rd
Phippsburg, ME 04562

Re: Reseeding

Dear Ms Wallace:

This is in response to your request to transplant seed clams as follows:

Start	Stop	Source	Destination	Supervisor	Approved
5/19/2016 2:00 PM	5/19/2016 7:00 PM	North Creek	Atkins Bay- (Middle), Wymans Bay (Middle)	David Gray- Shellfish Committee Chairman	✓

Note: Areas seeded with clams taken from Restricted or Prohibited (Closed) areas must be closed for a period of at least 6 months. This applies to any transplant listed above where 'Approved' is NOT checked. This letter will serve as permission for the above activity provided that the listed Supervisor contacts, 24 hours before the start of the activity, the Municipal Shellfish Warden, the Marine Patrol Officer responsible for this area and the Marine Patrol Division I Office at 633-9595. You may call the Division I Office in advance to determine who will be the local officer on duty and obtain direct contact information. DMR would also request that you work with your area biologist to evaluate the effectiveness of this transplant activity.

A copy of the Transplant Activity Log has been attached along with the permit for the purpose of recording the activity. Under DMR regulation Chapter 7 a copy of the completed Transplant Activity Log must be sent to the Department within 10 days of the activity.

If DMR can be of further assistance, please don't hesitate to contact me or your area biologist, Pete Thayer at 633-9539.

Sincerely,

Denis-Marc Nault
Shellfish Program Supervisor

cc: Peter Thayer, Area Biologist
Lt. Daniel White, Marine Patrol Division I - Boothbay
